# Anti-Virus Installation

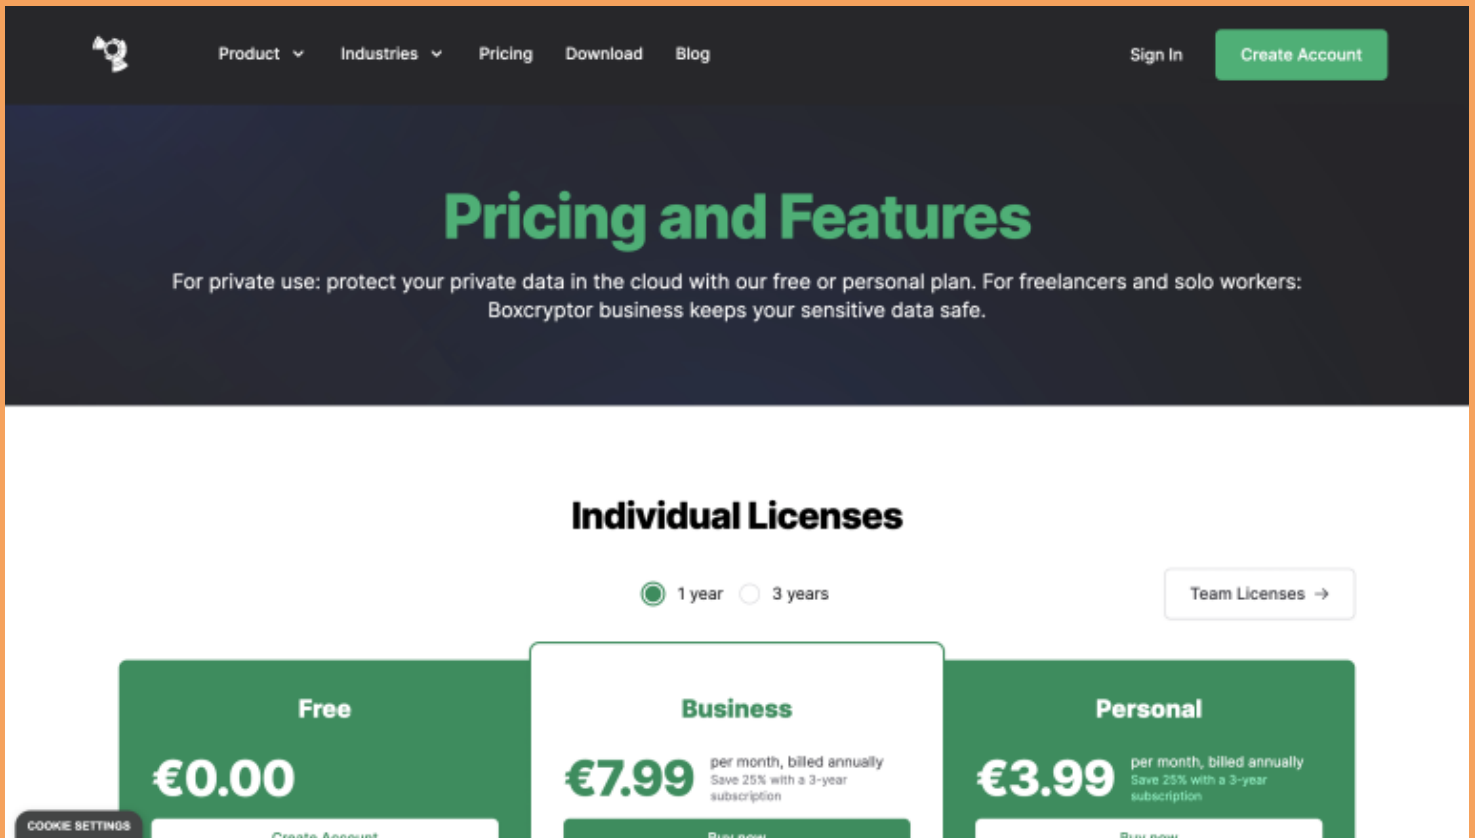

HOW TO INSTALL  
ANTI-VIRUS

By Rana Maglad

Step One:

# Boxcryptor

Introducing their website with a short description of what's provided.

Opening the website gives you a small introduction to what boxcryptor is and the type of software it covers.

Placing anti-virus software on your account or webpage is probably a more suitable and appropriate way around blocking hackers and unwanted guests from your webpage.

Installing anti-virus software is not complex and once installed, it can actually last you very long.

Boxcryptor is one simple software to install to your webpage:

# Boxcryptor

## Step Two:

The screenshot displays the Boxcryptor pricing page with three main subscription tiers: Free, Business, and Personal. At the top, there are radio buttons for '1 year' (selected) and '3 years', and a 'Team Licenses →' link. The 'Free' tier is highlighted with a green background and shows a price of €0.00 with a 'Create Account' button. The 'Business' tier is white with a green border, showing a price of €7.99 per month (billed annually) with a 'Buy now' button. The 'Personal' tier is green with a white border, showing a price of €3.99 per month (billed annually) with a 'Buy now' button. Each tier lists its features with checkmarks. A 'COOKIE SETTINGS' button is visible in the bottom left corner of the pricing area.

Free	Business	Personal
€0.00	€7.99 per month, billed annually Save 25% with a 3-year subscription	€3.99 per month, billed annually Save 25% with a 3-year subscription
Create Account	Buy now	Buy now

3 Option Deals Verify Different Requirements, And Different Subscriptions Allow Different Things.

They include 3 different packages that can best fit your standards and how you wish the software to operate when installing, for this introduction, we are selecting the Free Package.

# Boxcryptor

## Step Three:

A screenshot of the Boxcryptor account creation interface. The form is centered over a scenic background of a turquoise lake, green forest, and snow-capped mountains under a blue sky with clouds. The form has two tabs: 'SIGN IN' and 'CREATE ACCOUNT', with 'CREATE ACCOUNT' being the active tab. Below the tabs are two progress indicators: '1 Insert Information' (active) and '2 Password Information'. The form fields include 'First Name', 'Last Name', 'Email', 'Password' (with a red strength indicator bar), and 'Repeat Password'. There is a checkbox for 'Yes, I want to receive the newsletter' and a green 'PROCEED' button. Below the button is a link 'Already have an account?' and a link 'Sign in here'. At the bottom, there are links for 'Privacy Policy', 'Legal Information Obligation', 'Terms of Use', and 'Imprint'.

An Account Must Be Created In Order To Continue Using Their Page.

When creating your password, you should ensure that your password is long and strong enough, making sure that hackers do not attempt to break into your data. A way to make sure of this:

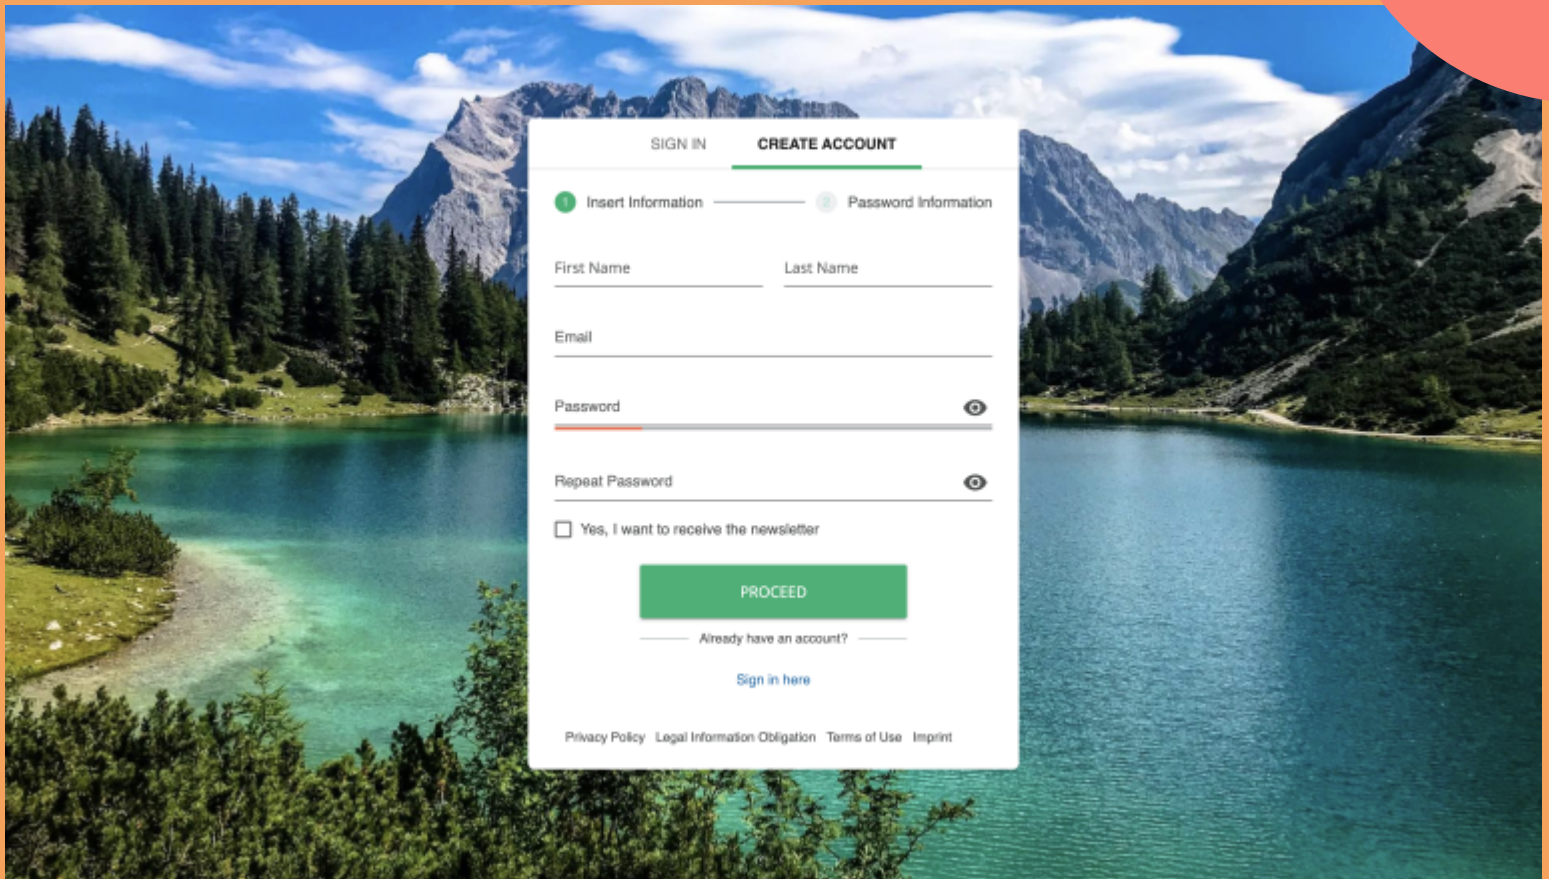

Continue on by filling in the following provided information to continue installing boxcryptor's software.

See the following page for further detail

# Boxcryptor

## Things to avoid when creating your password:

- + Make sure your password is more than 8 characters long
- + Use a mix of uppercase and lowercase characters
- + Include numbers in different areas of your characters, or even in between.
- + Include symbols in your password

## Some examples of strong passwords:

- + Do not use your Surname or Forename in your password
- + Avoid using your birthday
- + Do not use number sequences such as: “1234” | “09876” | “123456”
- + Avoid using guessable phrases such as “Password” | “\*Application Name\*” | “Username”

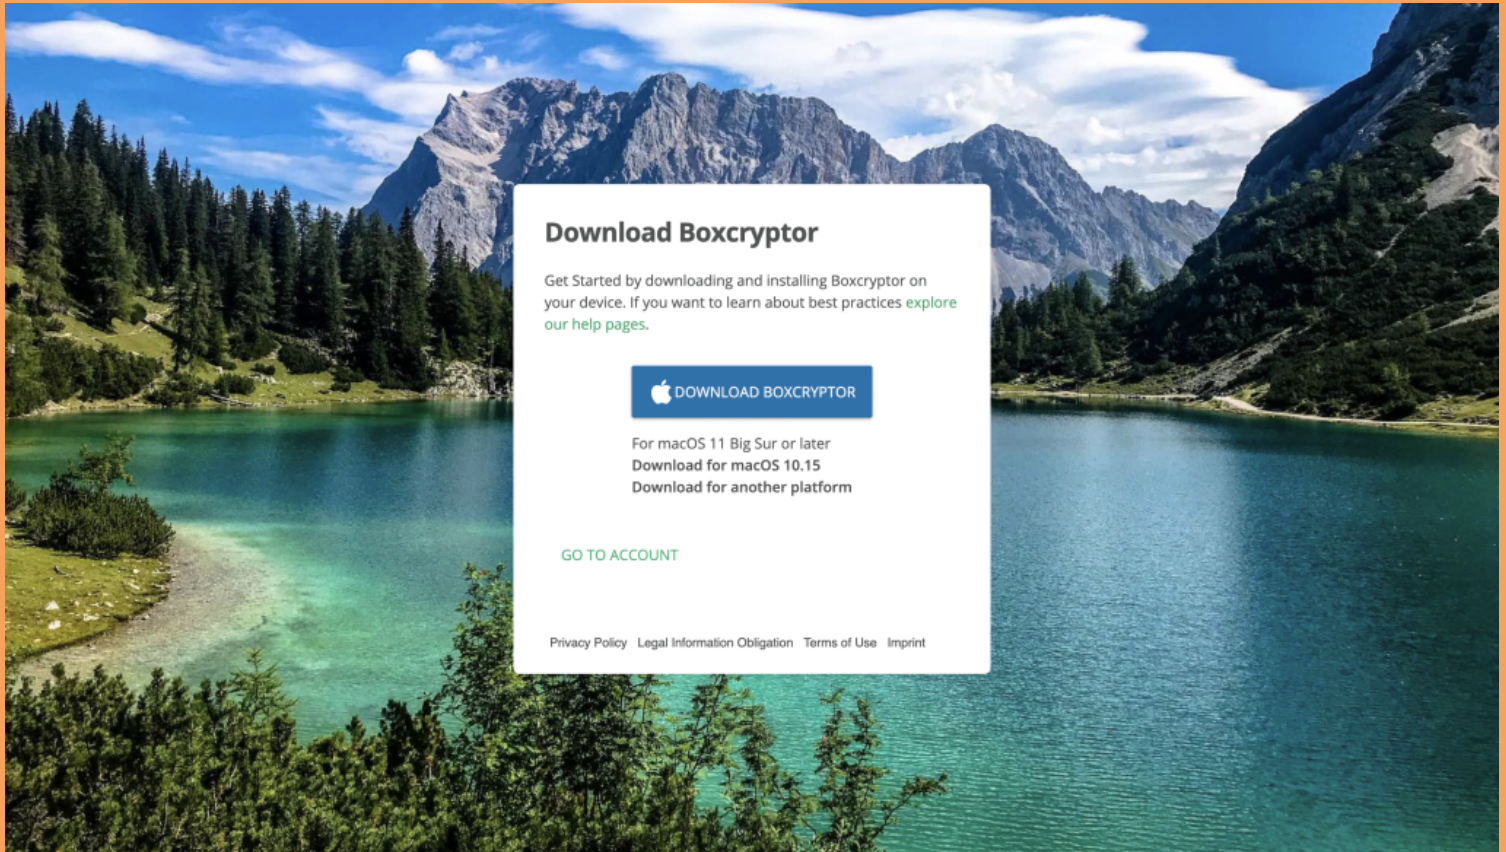

## Good examples:

.3mily89\$  
\$amo\$am9  
^Holly<!  
3bay\$2o!!

# Boxcryptor

## Step Four:

Proceed To Continue The Steps To Download Their App To Your Device.

Whether you are operating on an Android or Mac, this same page will appear when you have finished filling in the provided information above. Select the blue button to install the software to your device to then activate it.

# Boxcryptor

Step Five:

Final Steps To Downloading Their App To Your Device.

Finally, select the installed software and add it to your device. Open up the application to activate it and you will have completed the installation.
